

DISINFECTING HIGH TOUCH SURFACES

PURPOSE

High-touch surfaces have been shown to play a role in the transmission of pathogens both directly by surface-to-mouth contact and indirectly by contamination of hands and subsequent hand-to-mouth contact. Reinforcing and strengthening proper cleaning procedures, especially in high-traffic areas (as shown below), can be the best path of action for keeping our teams and customers safe.

Throughout the day and at end of business, use Spic and Span® Multi-purpose Cleaner and Comet® Disinfecting Spray with Bleach according to the manufacturer's instructions. For proper Disinfection let product dwell 1 minute (for Comet Disinfecting Cleaner with Bleach) and 10 minutes (for Spic & Span 3-1).

BACK OF HOUSE

- Door handles and push plates
- Handles of all the equipment doors and operation push pads
- Handles of the dispensers (beverage, etc.)
- Walk-in and other refrigerator handles
- 3-compartment sink and mop sink
- Mop handle
- Ice scoop (frequently through dishwasher)
- Hand-washing sink handles
- Soap dispenser push plates at the hand-wash sink
- Towel dispenser handle at hand-wash sink
- Trash receptacle touch points
- Cleaning tools
